

Covid Guidelines effective March 28, 2022 for Taste of Vail

As of **Monday, March 28, 2022**, the Taste of Vail will no longer require proof of COVID-19 vaccination or negative tests to attend events or seminars. Face coverings will be optional at all events and seminars, and we ask our guests to respect individuals who choose to wear masks as a precaution.

This decision has been made in response to low positivity levels and with guidance from local, state and federal officials. The Taste of Vail will continually monitor CDC, state and local health requirements and make adjustments, as necessary.

The Taste of Vail would like to thank its patrons and team members who have complied with the COVID policy. We encourage patrons to continue to make responsible decisions about their health and ask individuals who feel unwell to stay home.
